

## SHOULD WE MOVE? OR SHOULD WE STAY?

In today's uncertain economy, decision making has been difficult, to say the least. Signs of improvement are already appearing. So this too shall pass. Sound decision making and careful analysis is always required in order to reduce risk and paralyzing fear. Reflecting on my career as a Realtor and an Architect, I have found my clients consistently searching for answers to the following questions.

### *What if we were to stay? Should we . . .*

- Renovate and expand?
- Redecorate and or re-landscape?
- What is the cost and return?

### *Or . . . Should we move and*

- Buy a new home? Build a new home?
- Sell our existing home? Stage and prepare to move?
- What is the cost and return?

While serving my clients I have come to develop an association with a network of professionals in financing, construction, landscape architecture, interior design and staging. Together with my expertise in real estate and architecture my clients will need only one relationship to answer their questions, obtain new ideas and expertise to fulfill their unique selves and needs. This network of professional help is now available to you as a part of my services.

Building relationships through caring for my clients is the source of my success and pleasure. Please call to discuss any of the above questions and concerns about your ideal home and specific needs.
